Energetic Toxins

You were scanned against resonating heavy metals, bacteria, viruses, molds, parasites, and chemicals. Below are those that were found, energetic in nature, which simply means there was a match to the bioenergetic pattern of that category. **These are resonating toxins, meaning an energetic exposure to that toxin pattern. Please do not interpret this as a diagnosis or as medical advice.**

Bacteria

- A resonating bacteria that is produced in the human body.
- A resonating bacteria often transmitted by ticks, fleas, or mosquitos.
- A resonating bacteria often transmitted from person to

person, or through droplets in the air when an infected person coughs or sneezes.

- A resonating bacteria commonly found in soil, water, organic matter, plants, and food products.

Chemicals

- A resonating chemical that may be found in everyday items such as food and supplements, materials for constructing, fabrics, detergents, plastics, cosmetics, and fragrances.
- A resonating chemical commonly found in various industrial applications.

Metals

- A resonating Heavy Metal used in coinage, jewelry, or food packaging materials.
- A resonating Heavy Metal used in various implants, dental work, or water impurities.
- A resonating Heavy Metal used in various structural materials.

Mold

- A resonating mycotoxin that is produced by some species of molds, typically found on crops. It is typically transmitted through inhalation.

- A resonating Mold/Fungi that grows in plant debris, soil, and decaying wood.
- A resonating Mold/Fungi produced by mushrooms.
- A resonating Mold/Fungi that is used in food production or can cause food to rot.

Parasites

- A resonating parasite often transmitted through the consumption of a contaminated food or beverage.
- A resonating parasite commonly found in soil or water.
- A resonating parasite often transmitted by ticks, mosquitos, or other type of insect.

Virus

- A resonating virus often transmitted by ticks, mosquitoes, and other biting insects.
 - A resonating virus often transmitted through close personal contact such as shaking hands, coughing, sneezing, or touching objects that may have been touched previously by an infected individual.

Energetic Hormonal Imbalances

You were scanned to find resonating hormonal imbalances those hormones detected are listed below.

Hormones

- Low Vasoactive Intestinal Polypeptide
a peptide present in the mucosa of the gastrointestinal tract. One of its principle actions is to inhibit gastric function including gastric acid secretion. It is also present in nerve fibers of the female genital tract.
 - High Follicle Stimulating Hormone
A hormone produced by the anterior pituitary. It stimulates ovarian follicle growth, estrogen secretion, and spermatogenesis in the testes.
 - Low Thyrotropin Releasing Hormone
The major hypothalamic mediator of thyroid-stimulating hormone.

Notes

There is some work to do with fortifying some systems. The regimen below was synergistically tested for balance.

- **Please make note of the specific dosages listed within the remedy description below. It is ideal to start slow and work your way up to the full dose listed.**

Some remedies may not be available for international shipping

It would be ideal to have your hair and saliva samples scanned again to check your progress in roughly 4 to 6 weeks.

Balancing Remedies

 [Our Store](#)

Up until this point, we've been analyzing the current state of energetic stressors. This section will identify remedies to bring these stresses back into balance. When scanning for balancing remedies, your samples were scanned against thousands of potential remedies including herbs, homeopathics, and nutritional supplements. We take scanning a step further by making sure the full combination of remedies synergistically test well against your hair and saliva.
