Notes

After reviewing this report you can see Noah has significant stress, and specific toxins and imbalances that need to be addressed. The regimen to the left will work towards bringing him back into balance. It would be ideal to have his hair and saliva samples scanned again to check his progress in roughly 6 to 8 weeks. Please call 612-812-9121 so we can walk you through the report in greater detail and answer any questions you may have. Thank you.

Balancing Items

[🛒 Our Store](#)

After analyzing stress levels, imbalances, and toxins, a custom regimen has been developed. This regimen has been tested against the hair and saliva samples you provided to ensure the most balancing program. It is important to understand that it may take a few months of following before you see the results you are looking for because this type of work is sustained health versus a quick fix. It is suggested you get scanned every one to two months to see the biggest benefits.
